SPECIFICATION SHEET

BORON AMINO ACID COMPLEX 5% (Product # BRPB50)

Product:	BORON AMINO ACID COMPLEX 5% (Product # BRPB50) **(HYDROLYZED RICE PROTEIN)**
Form:	Powder
Mesh Size:	≥ 70% through #40 mesh (Rotap)
Color:	Tan w/brown specks
Odor:	Characteristic hydrolyzed rice protein odor
Loss on drying:	≤5% (Ohaus Model 6010 15'@3W)
Elemental Content:	~50 mg elemental Boron per gram
Mircobiological Profile:	Total Plate Count: Max 10^3 cfu/g Yeast and Molds: Max 10^2 cfu/g Coliforms: Max 10^2 cfu/g Salmonella: Absent 10/g E. coli: Absent 10/g Staphylococcus: Absent 10/g Pseudomonas: Absent 10/g
Complexing Agent:	Low molecular weight functional peptides, polypeptides and amino acids derived from enzymatically hydrolyzed rice protein isolates. Extensive protein hydrolysis results in an adequate ligand-to-element ratio required for maximum elemental bonding. The resulting product is organically complexed boron, manufactured under strictly controlled conditions for product consistency and guaranteed elemental content.
Expiry:	Three years from the date of manufacture (refer to COA and Lot# for specific date), when stored in original unopened container.
Storage:	Ambient storage, protecting from extremes of temperature. Avoid direct exposure to moisture.
Regulatory Status:	This product is a dietary supplement under the guidelines of U.S. Dietary Supplement Health and Education Act of 1994 (DSHEA).

This product is not intended to diagnose, treat, cure, or prevent any disease. This product contains no added sugars, starch, color, flavor or preservatives. The information contained herein is, to the best of our knowledge, correct. Statements made are intended only as a source of information. No warranties, expressed or implied, are made. Biotron® guarantees only specific information contained on released Certificate of Analysis complete with product Lot# and Release Signature. It is suggested that users evaluate the product independently prior to use in finished goods.
