	Pseudomonas:	Absent 10/g
<b>Complexing Agent:</b>	Low molecular weight functional peptides, polypeptides and amino acids derived from enzymatically hydrolyzed rice protein isolates. Extensive protein hydrolysis results in an adequate ligand-to-element ratio required for maximum elemental bonding. The resulting product is organically bound iron, manufactured under strictly controlled conditions for product consistency and guaranteed elemental content.	
<b>Expiry:</b>	Three years from the date of manufacture (refer to COA and Lot# for specific date), when stored in original unopened container.	
<b>Storage:</b>	Ambient storage, protecting from extremes of temperature. Avoid direct exposure to moisture.	
<b>Regulatory Status:</b>	This product is a dietary supplement under the guidelines of U.S. Dietary Supplement Health and Education Act of 1994 (DSHEA).
